While Mr. Pool was speaking, Hon.

Mr. Pool recommended the negroes to vote for two of the Radical ticket, who murdered negroes, and Rodman, who ordered loyal men to be shot for no other crime than that they would not fight against the Union and the FLAG!

A DINNER DAY .- In traveling through Mitchell county one day last week, Vance commenced eating dinner at 9 o'clock in the morning and could not stop until five o'clock in the evening. At almost every house on the road he found a hearty and cordial greeting, with a sumptuous repast set out for him, of which he was compelled to partake. And yet the Radical editor tells us Zeb. B. Vance has no influence in these Western counties! Why, there is not a true hearted man in these mountains that would not share his last crust with him.—Asheville News.

THE FREEDMEN.—A friend writes us that Josiah Turner, Jr., in his speeches, says that he relies upon the disfranchised men defeating the Constitution. THE SPEAKING AT KINSTON.—Our noble Congressional standard-bearer, Col. Kenan, surpassed himself to-day in the good old town of Kinston, and from what we can learn thoroughly impressed the minds of the people that it was their duty to vote knew some men who would carry ten and down the infamous Constitution lately framed at Raleigh. NEWS FROM THE EAST.—We learn from a private letter to a citizen of this place, that the white men are alive to their duty in the East. On Tuesday last, Littlefield, French Co. were to speak in Hertford, Perquimans county, dividing time with those able champions of the whites, E. D. Hall, W. N. H. Smith, D. M. Carter, H. A. Gilliam and P. H. Winston. We know they were skinned

The Plot of the Radicals for the Overthrow of a Republican Government—The Executive and the Supreme Court to be Abolished_The Terms of Office of Gran and the Senators to be Extended to Ten Years—A Combined Military and Sena-torial Dictatorship Contemplated.

WASHINGTON, April 14, 1868.—History records numerous instances of conspiracies to overthrow existing governments or to change ruling dynasties, but they have generally been the work of a few restless spirits, who have kept their real designs conciates, and thus have led their followers blindly on the path of revolution in ignorance of its ultimate goal. The Jacobins of France were bold in their action; but even with them when their revolutionary fires were first kindled only the men who applied the match knew fully the extent of the destruction that was designed to follow the conflagration. The Radical conspiracy now under full way at Washington is probably the most reckless that ever sought to strike at the life of a strong and beneficent government and to reduce a happy

people to a state of anarchy.

Events have occurred here within the past two or three days which render it certain that the ultimate object of the men who are now striving to control the Republican party in Congress is to effect an entire change in our republican form of government, and to substitute in its place a dictatorship more absolute and arbitrary than that of Robespiere and the Commune de Paris. The apparent triumph of the impeachers on Saturday last, when the Senate, after giving the broadest license to the Managers in regard to the admission of evidence against President Johnson, refused to the latter the privilege of examining General Sherman on points vital to the defence, imparting such confidence to the radical conspirators as to tempt them to cast aside all caution and to boast openly ciples were avowed which, under other governments, would speedily consign their exponents to a felon's cell. The objects of the revolutionists were declared to be the entire overthrow of constitutional republican government, as a failure, proved to be such by the war of the rebellion, and the substitution in its place of a so-called "Government of the People," under the delusive Jacobin cry of "Liberty and Equality." The means and process by days after articles of impeachment were which this end is to be accomplished are set forth as follows :-

The conviction and removal of Andrew Johnson, and the installation of Ben Wade | following : in the Presidency for three or four months before the commencement of the next Pre sidential term. The election of Grant as President and

The unlimited inflation of the currency This is the end and aim of the Radical

tools of the conspirators, and the patronage and influence of the office holders will stand at the back of the revolutionary commune. Grant will not have the power, if gister of this city, says: he had the disposition, to change a single feature in the programme—a single creature in the action of the drama-for the Senate will hold him in a vice stronger which will strike down what little of protion will run wild, stocks of all kinds will he had withdrawn.—Sentinel. rise, railroad schemes, land schemes and all the wildest projects that ingenuity can devise will find ready votaries, and in the general fire and smoke of the great revolution the radical dictatorship will be made perpetual. The united power of Grant, the Senate and the national banks is relied upon to crush out all opposition and to enforce a Reign of Terror to which the extrifle. The conspirators cite the case of Louis Napoleon in support of their argument that boldness only is required to turn into an absolutism a rule commenced under the guise of republican liberty.

The immediate admission of the Southand negro representatives, will follow the first successful steps of the conspiracy, and then the vote of New York in the House of Representatives will be nullified by that of theirs-let them enjoy it. - Sentinel. This relates not to the platform-for happily there will not be unmanageable diversity of opinion here-but to the choice of the available candidate. General Grant being the opposing candidate, the soldier vote of the late great armies, now scattered in every State, will be a large element in settling the result. And the question is, can that be counted on for a Democratic candidate taken from the wing of the "Peace Democracy?" To take an extreme case hardly any will be found to deny that it would be extremely hazardous to make Mr. Vallandingham the standard-bearer, for not only would his peace principles and his copperheadism be vocalized from every stump, but his actual hostility to the war. Work or Starve This is the law and penalty from which there is no escape. Thousands are trying money inherited or accumulated in former years, but with no avail. If idle they starve in the midst of plenty. They may eat to the full, but eating without exercise is against the laws of nature, and very soon the stomach refuses to digest the food, the body is not nourished, and the man literally starves though he may feel no hunger. The hand, the brain, the heart, must work to live. If you dodge the labor of learning essons, at the same time miss the strength of intellect which mental work brings, and the mind will perish for want of nourishment. Thousands have starved their wits in this way, until they wonder how it is that others carry away all the prizes in

They propose to regularly besiege the Senators who are doubted, or, in other words, who have very properly refused to commit themselves to the removal of Mr. Johnson, whether he be legally proved guilty or not.

The carpet-bag lobyists, among whom re two New York journalists, claim to have doubtful Senators, and they assert that of the eleven whom they feared were shaky that they will be all right; which means that these Senators have to-day agreed to vote for the conviction of the President.

Such are the givings out of these carpet-baggers, and such the character of slander for slander, as no doubt it is, that s promulgated against some of the mempers of the august Senate of the United

paper that some friend has recommended me to the electors of this proposed Senatorial District, as a suitable person for Senator. I have been urged by a number of our "good men and true," to announce myself a candidate, and have been assured of a cordial support by every lover of constitutional freedom in the counties of Rock. ingham and Moore. Whilst I am greatly gratified at these expressions of confidence on the part of my fellow-citizens, and am willing to make all proper sacrifices for the advancement of the public interest, I prefer to discharge my duty to the people, in this grave emergency, in a different sphere. Murdoch J. McSween has announced himself a candidate, in obedience to nomination in Moore. Knowing that he occupies the only position which any true man can take, in this sad hour, when demagogues and charlatans, for the base purposes of personal advancement, are endeavoring to uproot the cherished political dogmas of our fathers, I cheerfully recommend him to the support of the people,-Hear him for his cause. He believes, in the language of the proposed Constitution. which its makers borrowed partly from the fathers, "that the people of this State (the herent, sole and exclusive right of regulating the internal government and police thereof; but every such right ought to be ently with the Constitution of the United States," and hence, that all attempts upon the part of citizens of other States, or negroes within this State, "to alter or abolish it," "are dangerous to the public liberties and ought not to be allowed." All our candidates stand on this broad, strong constitutional platform, and are, therefore, entitled to the countenance of every good man in the land.

Your obedient servant, WALTER L. STEELE.

Radicalism in North Carolina. The Radicals are at loggerheads in North Carolina. Their candidate for Governor is W. W. Holden, who was one of the most Radical camp, attracted, no doubt, by the scent of plunder. As the worst kind of rebels are "truly loyal," as soon as they join the Radical party, Holden has succeeded in securing the nomination for Governor. Some of the original Radicals Why in that State are dissatisfied, however, and are showing up their candidate in a very bad light.
